

Professional Summary

AI & ML undergraduate at **Sharda University** with strong skills in Python, SQL, and data analysis. Experienced in data cleaning, visualization, and practical AI/ML applications through internships and certifications. Passionate about using data-driven insights to solve real-world problems and support impactful analytics solutions.

Skills

- **Technical Skills:** Python, SQL, Data Analysis, Data Cleaning & Preprocessing, Machine Learning Basics.
- **Analytics & AI Knowledge:** EDA, Data Interpretation, Generative AI, Google Analytics.
- **Tools & Platforms:** Jupyter, Notebook, Google Colab, Excel, Google Analytics Dashboard, GitHub.
- **Soft Skills:** Analytical Thinking, Problem Solving, Communication, Team Collaboration, Adaptability.

Internship

Data Analytics Intern

Sept 2025 – Dec 2025

Organization: GLOBAL NEXT CONSULTING INDIA PRIVATE LIMITED

Greater Noida, UP

- Analyzed datasets using Python, SQL, and Excel to generate insights for data-driven decision-making.
- Performed data cleaning and preprocessing to improve data quality and accuracy.
- Developed an interactive dashboard to analyze sales trends, profit, and customer data using data visualization.

AI&ML Intern

Nov 2025 – Jan 2026

Organization: INFOSYS SPRINGBOARD

Virtual

- Developed an NLP-based system to analyze speech patterns and assist in speech therapy.
- Implemented speech processing techniques to improve pronunciation and communication skills.
- Completed hands-on training in Artificial Intelligence, Machine Learning, and Natural Language Processing (NLP).
- Applied NLP concepts for text analysis, feature extraction, and understanding language-based AI applications.

Projects

Intelligent Speech Therapy Platform | *Python, NLP, Machine Learning*

Nov 2025 – Jan2026

Tools: Python, NLP, Machine Learning

- Developed an NLP-based speech analysis system to identify pronunciation patterns and support speech therapy improvement.
- Designed the solution to enhance communication skills through AI-driven speech analysis.

Sales Analytics Dashboard | *Excel, Data Visualization, Kaggle Dataset*

September 2025 – Dec 2025

Tools: Excel, Kaggle Dataset

- Built an interactive sales dashboard to analyze revenue, profit, and customer trends using Excel.
- Improved decision-making by presenting key performance metrics in a structured dashboard format.

Certification

1. **Oracle Cloud Infrastructure Generative AI Professional** | Oracle
2. **Data Science Foundations Fundamentals** | LinkedIn Learning
3. **Statistics & Mathematics for Data Science & Analytics** | Udemy
4. **AWS Cloud Essentials** | AWS

Education

Sharda University, Greater Noida, Uttar Pradesh

2024-Present

Bachelor of Computer Application (AI&ML)

Cumulative CGPA: 9.475/10
